

Prof Dr. Jürg Stöcklin

Address

Botanisches Institut der Universität Basel, Schönbeinstrasse 6, 4056

Basel (Schweiz)

Tel. ++41 (0)61 267 35 01, Fax ++41 (0)61 267 35 04

Juerg.Stoecklin@unibas.ch

Curriculum vitae

Born 5.9. 1951 in Hazaribak, India

1971-77 Master of Science in Biology, University of Basel

1977-81 Coworker in the Pharmaceutical Insustry and in the Media

1982-86 PhD, University of Basel with Prof. Zoller «Litter production and decomposition in calcareous grassland»

since 1988 Lecturer in Botany at the University of Basel

1987-91 Research grant for «Population biology of pioneer species»

1991 Research project on Epilobium species in Georgien (former UdSSR)

1991-93 Research Grant of the Treubel Fonds

1998 Habilitation in Botany at the University of Basel

2007 Professor of Botany, University of Basel

Married, 2 children.

Research projects

Topics in Population and evolutionary biology:

- The demographic and functional consequences of clonal growth in plants
- The impact of man-made local and global change in calcareous grasslands
- Patchy habitats, meta-populations and genetic diversity in alpine plant life

Research projects

- Long-term Vegetation Change in Calcareous Grasslands
- Reproduction in Alpine Plants: Persistence, Dispersal and the Landscape Level
- How patchy habitats and isolation affect alpine plant life

- Ecology and function of clonal growth in plant communities
- Global Change and the Genetic Structure of Grassland Species
- How cultural traditions and land use affect grassland biodiversity in the Swiss Alps

Publications

- List of publications

Membership

- Basler Botanische Gesellschaft - Präsident und Redaktionsmitglied der Bauhinia
- Botanical Society of America (BSA)
- British Ecological Society (BES)
- Gesellschaft für Ökologie GfOe
- International Association of Vegetation Science (IAVS)
- Schweizer Botanische Gesellschaft
